# Workgroup Tools

- Design notes
  - Attached to a page. Everyone in the workgroup sees them.
- Check-in/Check-out option for file management
  - Only one user can be editing a particular file at a time
- Common site assets
  - Everyone has access to the same templates, images, media, etc.
- Synchronization of local and remote sites
  - Assures you have the latest versions of all files
- Templates
  - Allows a manager to limit access to parts of designated pages
